

ENVIRONMENTAL ACCREDITATION

The mark of responsible forestry

FOREST STEWARDSHIP COUNCIL CERTIFICATION

FSC runs the highest, most trusted global forest certification system with two key components: Responsible Forest Management and Certified Chain of Custody. FSC certified responsible paper procurement guarantees FSC paper stocks come solely from responsibly managed and accredited sources. FSC has a direct, permanent and positive impact on the world's forests and on the people and everything living from, in, and around them.

ISO14001 – ENVIRONMENTAL MANAGEMENT SYSTEM

The ISO14001 standard is the internationally endorsed standard that creates the framework for an effective and socially responsible Environmental Management System. It is the most recognized and developed of its kind in the world and specifies a stringent process for the control and continuous improvement of an organisation's environmental performance.

Eckersley Print Group is an industry recognised leader in environmental innovation. As one of only two print manufacturers in Queensland, with both the ISO14001 Environmental accreditation AND full FSC & Chain of Custody certification, Eckersley Print Group continuously works for optimum environmental print solutions and carbon neutral outcomes.

Partnering with Eckersley Print Group, ensures you can confidently demonstrate your own commitment to environmental sustainability knowing you are sourcing your print from an environmentally responsible, FSC certified manufacturer, accredited to the highest possible, internationally recognised ISO standard!

If being **green** is a critical component of your print procurement, our full FSC & Chain of Custody certification guarantees that our FSC sourced stock used to create your print solutions, comes from sustainable managed forestry with the highest environmental and social production standards in the world. In turn, you can choose to feature the globally recognised FSC trademark on your printed products to provide your own customers that same reassurance.
